

Delivered grEAn™

Delivers GREEN

Freight transportation is a major source of greenhouse gases. EA Logistics created **Delivered grEAn™** to help our clients reduce their shipping-related “carbon footprint.” Not only is it good for the environment, but there are significant reasons to use this eco-friendly shipping program:

1. It's good for business

Green is an important business issue today, and those that respond are gaining a competitive advantage that can help win clients and strengthen client relationships.

2. It's effortless and FREE!

We calculate your shipment's estimated CO₂, purchase carbon offsets on your behalf and do all the paperwork. There are no additional costs to you and we will customize a program to provide you with maximum marketing impact.

3. Performance you can count on

Since 1977, EA Logistics has provided customers with on-time service, damage-free transport and a competitive price. Trusted professionals move your freight with skill, attention to detail and communicate with you from rate quote to POD.

Consider **Delivered grEAn™** for:

Point of Purchase: Support your company's CO₂ reduction goals by having point of purchase displays **Delivered grEAn™**.

Printing: Take your green commitment beyond recycled paper and soy ink by having shipments **Delivered grEAn™**.

Trade Shows and Expos: Reduce your event's carbon footprint by having booths, accessories and materials **Delivered grEAn™**.

Retail: Meet a retailer's sustainability criteria by having your consumer product **Delivered grEAn™**.

ANOTHER GREAT PROGRAM FROM THE SERVICE SPECIALISTS

Since 1977, EA Logistics has moved freight around the USA and world. We handle trucking, airfreight, ocean and rail cargo. Whether you're a once-a-month shipper or need to move large-scale rollouts, we have the capacity to handle any job, anywhere, anytime. When you choose EA Logistics, you're greening your supply chain by working with an environmental leader that uses bio-diesel fuels and other eco-friendly practices in its business. Add that to free CO2 offsets, and it's a win-win for your business and ours!

How *Delivered grEAn*[™] works:

EA Logistics computes your shipment's "carbon footprint" based on distance, weight and mode of transportation. We then "cancel out" the shipment's emissions by purchasing carbon offsets from Carbonfund.org, which invests in carbon-reducing projects such as renewable energy, energy efficiency and reforestation elsewhere in the world. When you ship with EA Logistics, you will receive:

- an offset receipt from Carbonfund.org
- a sticker on each shipment indicating it was *Delivered grEAn*[™]
- a *Delivered grEAn*[™] stamp on the invoice and delivery receipt

Customer satisfaction is the cornerstone of our success.

"EA has always come through for us when others couldn't — for big roll-outs and small shipments. Now with the free CO2 offsets, we can prove to our customers that we take their green initiatives seriously."

– **Felice Gold**
Senior National Accounts Representative
Diageo

"As the official General Services Contractor for the USGBC's Green-build Conference, it is imperative that we create extended partnerships with companies that share our philosophy and dedication to service and quality. That's why working with EA was an important transition for us in 2007. Your customer service, timeliness and enthusiasm made our job easy — we look forward to our continued partnership."

– **Anah Corley**
VP Business Development
Stetson Convention Services

"Having EA as our transport partner for the Cool Globes exhibition was a great decision. Their professionalism, attention to detail, thoughtful and creative solutions to complex deliveries and ability to react to last-minute changes was invaluable to us and a major factor in the success of the entire project."

– **Wendy Abrams**
Founder
Cool Globes
